- 

Monthly Highlight

Review on Studio Etiquette:

- When arriving late, please ensure that your student has used the restroom and grabbed a drink of water before entering the studio to avoid interrupting the class multiple times.
- Do not send your student into the studio while music is playing, as this can distract dancers executing the current exercise.
- Parents are not allowed to enter the studio for any reason unless invited by the teacher. If you have an emergency, please see the front desk, and they will notify the appropriate teacher.
- As we enter Nutcracker season, we want to remind all involved students that rehearsals are not optional. They are incredibly important and play a vital role in the result of the overall production.
